This is limited to lifting a fallen rider's machine only, and pointing it in the right direction and restarting the motorbike. No outside pushing is permitted to assist the rider. Only adults will be allowed within the track areas once practice has commenced. Fallen riders must get up themselves; parents/helpers can lift the machine but are not to lift the rider.

### Overtaking (rule 6.10)

If you are not too confident out there and hear a bike approaching from behind, do not panic. Do not move over to let them pass you, hold your line. If you are the person overtaking – it is your responsibility to do it safely with regard for your own and the safety of other competitors.

### **Flags (rule 6.17b)**

**Yellow** – A yellow flag means SLOW down immediately, NO overtaking and NO jumping or closing the gap. A failure to obey a yellow flag will be treated very seriously. There is no excuse for not obeying them, they are there for your safety and all of the riders around you.

**Black** – you have a problem and need to stop.

**Red** – the race is being stopped, slow down immediately and proceed around the track slowly back to the start area and await an announcement. Do not return to the Pits unless instructed to do so.

**Purple** – at the track exit

**White** – One lap to go.

**Chequered Flag** – The race has finished. Stop racing, leave the track and return to the pits slowly.

### **Starters Orders (rule 6.6i)**

Once you enter the start area you are under the ‘Starters’ complete control. What they say goes, this applies to gate picks, positions and start procedures.

This weekend we will be using an electronic start board on the main track and start boards on the mini track. The board will be activated once the starter signals riders on the line are ready. Check Helmet Strap will be displayed. The board will then countdown from 10 seconds to 0 (zero). This is followed by a series of red dots. The gates will not drop until after the countdown has reached 0 (zero) and the red dots appear.

### **Start Area**

Only the rider & one member of their pit crew are allowed in the start area at a time. No exceptions, if this is not adhered to you will be asked to leave the start area. If you are using start blocks, it is your responsibility to remove them from the gates after your rider has left the gates. Keep an eye on the race order. Each time the gate drops the next class should be in the start area. Gate pick will go off Saturday practice lap times for the duration of the event.

### **Track Markings (rule 6.10a)**

If you miss a marker and leave the track, you must re-enter safely and ensure you do not gain an advantage. NEVER ride backwards anywhere along the track.

### **Exit from the Track**

This will be clearly marked and made clear at riders briefing.

### **Helmets**

All riders riding motorbikes must wear a helmet. No helmet, then don't ride, walk. 1<sup>st</sup> gear at all times, slow, walkers have right of way off the track. One rider to a bike at all times.

### **Machine Examination (rule 6.19)**

It is your responsibility to turn up with a machine in sound condition, without defects. We will be carrying out basic visual inspections on the line during practice. If you are spotted with a defective item, you will be asked to pull off the start and return to the pits to have the issues sorted before you can race. Riders who require a One Event Licence **must** have their bike 'checked' prior to participating in any part of practice/racing – you will be sent separate information relating to this.

### **Protective Equipment (chapter 8)**

It is your responsibility to ensure your gear is in proper working order and compliant at all times. We will be inspecting safety equipment on the line during practice. Please appreciate if you we point something out it is for your own safety and it needs to be sorted before you can race.

### **Body Armour**

Commercially available Motorcycle Body Protection (Armour) that **MUST** include back protection must be worn. Checks will be carried out on the line, & you will not be allowed to participate without this on.

### **Helmets**

You need to take your helmet/(s) along to sign in. We don't want to turn anyone away on the day, so please check in advance that your helmet meets current MNZ regulations. The Snell approval code of M2010, M2000 or M2005 can no longer be accepted. Helmet standards are found either on a label on the chin strap, a sticker inside the lining of the helmet, or on the outside rear helmet at the base. Please ensure you have the correct safety gear; regulations around Safety Gear can be found the following link at: [https://www.mnz.co.nz/docs/default-source/rules/chapter-8---safety-gear-\(off-road\).pdf?sfvrsn=2](https://www.mnz.co.nz/docs/default-source/rules/chapter-8---safety-gear-(off-road).pdf?sfvrsn=2) An example of what the Helmet Standards look like is provided at the end of these regulations.
